Sensor, Gas leakage detector, Heat sensor, vibration sensor etc...

Electronic Home Security
Feeling Secured - A Reason to Smile And Stay Calm

home; They alert you at the time of need and make you feel secured. Contact Door sensors at your home alerts you via SMS / Call at time of intrusion, burglary or any other unauthenticated entry. The smoke sensors alert you if there is any fire break out, similarly the LPG gas detector in your kitchen gives a warning at time of gas leakage.

Distance is not a constraint, where ever you are and how long you are away from your home, still there is a reason to smile and stay calm since your dream home is electronically secured.
